

FLOORING REVOLUTION

Mountain Peak Oak

Product Description

With the Mountain Peak Herringbone floor, you can easily bring a touch of rustic warmth into your home. Exuding cool light brown tones with subtle darker hues in the knots and grains that truly transform this engineered wood into a masterpiece of interior design. The planks measure 14mm in thickness and come with a durable 3mm hardwood layer, offering a convenient alternative to a solid wood product. The surface is composed of a brushed and UV oiled finish which protects the floor while also allowing the beauty of the authentic wood detailing to shine through. Designed to be installed in a classic herringbone pattern with a simple click fitting system, this engineered wood floor will complement a traditional decor perfectly and will bring classic style into modern interiors.
